DETAILED ACTION

Response to Amendment

The amendment filed on 2/4/2005 has been received and acknowledged to be found persuasive in view of the prior art of record.

Allowable Subject Matter

Claims 1-26 are allowed.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The prior art of record does identify a broad band power source that represents noise characteristics of the digital unit, but fails to describe or suggest *inter alia* the invention of simulating performance of an integrated circuit by evaluating lumped circuit performance, where the source couples to a lumped element representing the substrat and the substrate couples to a lumped element representing the analog unit, as claimed. The claims, therefore define over the prior art. Any comments considered necessary by applicant must be submitted no later than the payments of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
